

Maths answers 24.3.20

The blue jug had 250ml.  
 The red jug had 300ml  
 The yellow jug had 200ml

The red jug had the most  
 The yellow jug had the least.

Questions

①  $250 + 300 + 200 = 750$   
 750ml

② The yellow jug is the perfect size. I could use the red or yellow.

③  $250 - 150 = 100$   
 100ml

④ The yellow jug holds 500ml  
500ml  
 Yellow + Blue = 450ml  
500  
250 | 200

There is enough space.  
 $450 < 500$
